

500kg Static Electric Lift Platform with Ramp

Model: HTFG0.5

A static electric platform with a 500kg capacity, supplied with a ramp to make loading pallets easier. With a lift height up to 760mm, it is ideal for piece work type operations - can help prevent repetitive strain and back injuries by putting a pallet at a more suitable working height.

Table Top Size: 1015x610mm

Capacity: 500kg

Maximum Table Height: 760mm

Minimum Table Height: 80mm

Lifting time: 18 seconds

Lifting speed with load: 34mm / sec

Lowering speed with load: 75mm / sec

Motor: 0.75kw

3 Phase

Safety cut-off bars on all sides
