

# 2000kg Static Electric Lift Platform with Ramp

Model: HTFG2.0

A static electric platform with a 2000kg capacity, supplied with a ramp to make loading pallets easier. With a lift height up to 1000mm, it is ideal for piece work type operations - can help prevent repetitive strain and back injuries by putting a pallet at a more suitable working height.

Table Top Size: 1560x1140mm

Capacity: 2000kg

Maximum Table Height: 1000mm

Minimum Table Height: 100mm

Lifting time: 62 seconds

Lifting speed with load: 16mm / sec

Lowering speed with load: 23mm / sec

Motor: 0.75kw

3 Phase

Safety cut-off bars on all sides
