

STATIC ELECTRIC LIFT TABLE - HTFG

Low profile static electric lift table can be used for many purposes including piece work. The low profile usually eliminates any need for a pit and when coupled with the ramp, makes the continual lifting of items very easy.

These static electric lift tables also come with a remote power pack with a pedestal fitted to it, leading to the controls buttons - up, down and a safety stop button. There is a further safety perimeter which halts descent when it comes into contact with any obstructions.

HTFG SPECIFICATIONS:

Capacity: 1000kg
Maximum Table Height: 760mm
Minimum Table Height: 82mm
Platform Table Top Size: 1450x1140mm
Lifting time: 18 seconds
Lifting speed with load: 42mm / second
Loweing speed with load: 48mm / second

Motor: 0.75KW
Net weight: 250kg
European electronic controlling system
Conforms to EN1570 and BSEN60204-1
3 Phase AC380v/50hz mains
Safety cut-off bars on all sides
High Quality Powder Coating
