

Model ESP20P

This Heavy duty weigh scale pallet truck is the ideal solution for all weighing requirements in a busy warehouse environment.

The truck is made from High Quality steel and based on our 2500kg truck frame and pump unit. Polyurethane double fork rollers and steer wheels are fitted as standard.

The truck is fitted with four load cells that deliver a accuracy of +/- 0.03% of the applied load, the header unit is powered with 4 standard AA rechargeable batteries that are charged when the unit is connected to the mains supply (12 hour full charge time).

The unit is fitted with a Micro Printer to record your weighing result.

The scale offers gross/net weighing, total weight, piece counting and tare functions reading in 1kg increments.

The truck is TUV/GS CE approved and conforms to EN1757-2
